

VARUN PATEL

MERN DEVELOPER

Profile

As a dedicated second-year engineering student, I'm deeply passionate about software improvement. Currently, I'm channeling my skills by working as a part-time employee at MindInventory, where I create captivating landing pages using a mix of HTML, CSS, SCSS, and React.Js. I specialize in creating efficient and high-performing web applications using the MERN stack. My focus is on developing scalable applications that can handle growth and provide a seamless user experience. This experience not only enhanced my technical skills but also ignited my passion for innovation and problem-solving in the field of software engineering.

Experience

- **Mindinventory, Ahmedabad** | 2022 - Present
While In College, I Received An Offer To Work As A Junior Front-End Developer At Mindinventory. In My Role, I Am Responsible For Developing High-Quality Landing Pages And Websites Utilizing Various Technologies Such As HTML, CSS, SCSS, React.Js, And Next.Js. Additionally, I Create JavaScript Animations Using Libraries Like GSAP, Locomotive, Lenis, And Framer Motion.

Education

- **BACHELOR'S IN COMPUTER ENGINEERING**
Sal institute of technology and engineering research, Ahmedabad, City | 2022 - Present
Description of the education/course.

Projects

- | | |
|---------|--|
| Present | REALESTATE DASHBORD WEBAPP
Build a comprehensive web application using MERN stack to efficiently manage all aspects of real estate operations. The platform will include a built-in chat system, project management tools and an email system to facilitate seamless communication and collaboration within the organization |
|---------|--|
